FEATURED PRODUCT & ENGINEERING PROJECTS

- BidBento (bidbento.lol)** — *Real-Time Auction & Visibility Platform* Next.js, Python, FastAPI, PostgreSQL, Docker
- Engineered full-stack real-time web platform where validated bids dynamically claim proportional visual screen space.
 - Implemented Python/FastAPI REST services with Pydantic validation and PostgreSQL ACID transactions with row-level locks preventing race conditions.
 - Built responsive frontend with Next.js App Router and Tailwind CSS, achieving sub-second rendering and animated SVG mascot interaction.
- INTERFUSÃO Group (interfusao.com.br)** — *Corporate Web Portal & Design System* React, TypeScript, Figma, SEO
- Spearheaded brand identity system and corporate web portal evolution for an industrial engineering group with 40+ years in mining.
 - Developed modular responsive frontend components achieving 98 Core Web Vitals score and structured technical SEO.

PROFESSIONAL EXPERIENCE

- Interfusão Group** São Paulo, Brazil
Marketing & Brand Analyst (Visual Identity & Web UX) May 2025 — Present
- Unified 20+ industrial brand touchpoints and engineered the official corporate web portal focused on B2B lead generation.
 - Applied user-centered design systems and high-performance digital interfaces across company assets.
- Agência RC Marketing** São Paulo, Brazil
Creative Art Director February 2025 — May 2025
- Directed creative execution for retail and point-of-sale campaigns for major brands including Aurora Foods.
 - Led a 4-person creative team, ensuring press-ready production files and strict brand guideline compliance.
- LIV Marketing** São Paulo, Brazil
Head of Design / Junior Designer October 2022 — June 2024
- Managed creative vision and delivery across branding, digital identity systems, and web interfaces for corporate clients.
